Carl Bruns was named 1990 recipient of the David L. Underwood Memorial Lecture Award—an award that honors outstanding staff members for their dedication to teaching and students. The title of his talk was "The Childlike Spirit."

Carl Bruns has B. S. degree from the University of Missouri Columbia and Masters of Education at Washington University.

He joined the Florissant Valley Staff 23 years ago, and served as department chair and mathematics consultant for elementary schools.

In 1983, Bruns was nominated for the Presidential Award for Excellence in the teaching of mathematics. He also was named Outstanding Mathematics Teacher by the Mathematics Educators of Greater St. Louis.

Bruns, who retired last May, still teaches part-time on campus.
