NOTE: The itinerary is shown in three ways because it would be better to cover some of the area thoroughly than to attempt too much hstily.

--- Indicates the routes and destinations I will definitely try to travel and reach.

----- Indicates the additional visits I will attempt to make, hoping that time permits and the people are available.

-------- Indicates additional visits I will make depending on time and travel funding—or on my own in later years as time permits, if these visits are found to be impossible during this one semester.

I have written to Ms. Helen Schierbeck of the Indian Education Section of the United States Office of Education to see if travel expense assistance is available for this project.
